**RESSY:  
REVOLUTIONIZING THE  
MEMECOIN ECOSYSTEM**

# INTRODUCTION

**RESSY is a meme coin built on the Ethereum blockchain, aiming to bring fun and excitement to the decentralized finance (DeFi) space. With their tokenomics structure, RESSY introduces a fair, transparent and sustainable model, ensuring long-term growth and community engagement. This whitepaper outlines the key features and the tokenomics of \$RESSY.**

# TOKENOMICS

**RESSY has a carefully designed tokenomics structure that includes allocations for the team, marketing, private sale, airdrop and liquidity.**

## Liquidity:

- Locked for 3 years

## Private Sale (5%):

- 5% released immediately

## Partnerships (10%):

- Held/locked for 2 years
- Vesting monthly, beginning 1 month after launch

## Taxes (0%)

- No taxes on transactions

## Team Token (13%):

- Locked for 3 years
- Vesting monthly, beginning 2 months after launch

## Marketing (7%):

- 0.5% released immediately, locked for 2 years
- Vesting monthly

# MARKET CAP

**RESSY aims to start with a market cap of \$10,000, allowing for organic growth and community-driven initiatives.**

# COMMUNITY

**RESSY places a strong emphasis on community engagement. Token holders will have the chance to participate in future events and competitions.**

# ROADMAP

**Step 1: Meme Launch**

**Step 2: Chill Vibes and HODL**

**Step 3: \$RESSY Rules the Memecoin  
Crypto Kingdom**

# CONCLUSION

**RESSY** is more than just a meme coin; it is a community-driven project. With a unique tokenomics structure, fair distribution, and commitment to transparency, **RESSY** aims to revolutionize the meme cryptocurrency space.
